**Speaker Topics (Area of Expertise):**

Driving and Community Mobility

**Speaker Bio:**

I have more than 19 years of occupational therapy experience working in various adult settings within the medical model including acute care, skilled nursing facilities, and outpatient rehabilitation. I specialize in dementia care, treating adult neurological disorders including stroke, Parkinson's disease, and Amyotrophic Lateral Sclerosis. Additional areas of expertise include seating and mobility assessments for an adult population, aging-in-place home assessments and modifications, and driving evaluations and training for medically complex clients. I have undergone specialized training to become a Driver Rehab Specialist. As well as a Licensed Texas Driving Instructor. Areas that are addressed within the private practice include evaluation to determine Fitness to Drive, assistance with driving retirement, and driving training for clients needing modified driving controls. I also work with young adults with Neurodiversity to maximize their driving and community mobility independence.
