All Hands on Deck

A lifetime of hand care

Join us for the 2023 TSHT Annual Educational Conference in The Woodlands! As many of us know, caring for our patients requires a team-based approach. Here, we will learn about upper extremity management across the lifespan from a variety of care team perspectives. We are excited to dive deep into hand care and how it evolves as our patients progress through life. TSHT is also offering two fantastic pre-courses including an upper quarter dissection for an up-close review of anatomy. We will also be hosting an orthosis fabrication workshop to provide an opportunity for you to fabricate more advanced orthoses and incorporate them into your practice. Read on for more details!

IMPORTANT DATES

PRE-COURSE OFFERINGS

(ADDITIONAL REGISTRATION REQUIRED)

Pre-Course 1: Upper Quarter Dissection

William C. Pederson, MD, FACS

Location: Baylor College of Medicine Cadaver Lab

Description: During this three-hour lab, Dr. Pederson will dissect an upper extremity while discussing the anatomy, common surgical procedures, and provide clinical relevance to hand therapists.

Price: \$175 TSHT members, \$225 non-members

Space is limited.

Pre-Course 2: Orthosis Fabrication Lab

Location: The Woodlands Resort

Description: During this four-hour lab, participants will have an opportunity to fabricate a variety of orthoses to correct deformity or improve function: relative motion, nerve palsy, posterior elbow (orthoses subject to change).

Price: \$150 TSHT members, \$200 non-members

Space is limited.

*TOTA and TPTA CEU approval pending

LOCATION

The Woodlands Resort, Curio Collection by Hilton

2301 North Millbend Drive
The Woodlands, TX 77380
